

MUHAMMAD UMER AZIZ

Full-Stack Developer

Lahore, Pakistan | m.umer394aziz@gmail.com | +92 329 8835620 | github.com/zestymec | linkedin.com/in/zestymec | zestymec.netlify.app

PROFESSIONAL SUMMARY

Full-stack developer currently working as a Frontend Developer on contract at Alkhidmat Foundation Pakistan, one of Pakistan's largest welfare organizations — promoted from an internship after shipping a production fundraising platform used by the organization. Proficient across the MERN stack, Next.js, and React Native, with hands-on production experience spanning web, mobile, and backend development in Python and SQL. Freelance experience delivering full-stack builds, e-commerce operations, and digital marketing for five small-business clients. Currently pursuing a BS in Computer Science at Virtual University of Pakistan while deepening skills in Python and machine learning, with a long-term goal of working at an international level.

TECHNICAL SKILLS

Core Stack: JavaScript (ES6+), TypeScript, React.js, React Native, Next.js, Node.js, Express.js, MongoDB, Tailwind CSS

Python & Data: Python, SQL, REST APIs; growing ML foundation (Pandas, NumPy, Scikit-learn)

WordPress: Theming and ACF (Advanced Custom Fields) customization, since 2024

Tools & Platforms: Git/GitHub, VS Code, Figma, Excalidraw, Vercel, Netlify, Hostinger, n8n

Marketing & Design: Meta Ads management, Canva, e-commerce operations, social media marketing

PROFESSIONAL EXPERIENCE

Frontend Developer (Contract) — Alkhidmat Foundation Pakistan

Media & Marketing Department, Lahore Head Office | September 2026 – Present

Web Development Intern — Alkhidmat Foundation Pakistan

January 2026 – September 2026 — promoted to the contract role above after this internship

- Shipped a complete fundraising platform (Next.js, Tailwind CSS) for the organization — 15+ components covering authentication, campaign management, and fundraiser profiles — including an AI-powered writing assistant that enhances campaign descriptions.
- Build and maintain components for alkhidmat.org's Next.js frontend, and contributing to a full site redesign in React.
- Developing the organization's mobile app in React Native for iOS and Android, plus a dedicated WebView app.
- Refactor and modernize legacy code under senior engineering supervision, using full Git/GitHub version-control workflows.

Freelance Full-Stack Developer — Self-Employed

Ongoing, concurrent with the Alkhidmat role and BSCS studies

- Design, build, and operate full-stack solutions for five small-business clients — Bazaura.pk, WerInvestments, Bella, NoorVerse Academy, and Hijazi Collections — including WordPress theming and ACF customization since 2024.
- Leading a complete platform rebuild for Bazaura.pk: a Next.js web app, a React Native mobile app, and a shared Python/SQL backend serving both.
- Manage e-commerce operations (orders, shipping/courier coordination via PostEx), paid and organic social campaigns, and ad creative (Meta Ads, Canva) for client brands.

SELECTED PROJECTS

- Bazaura.pk Platform** — Next.js (web), React Native (mobile), Python/SQL (backend). Full-stack rebuild of a live e-commerce business across three repositories: [bazaura.pk-next-js-web](https://github.com/zestymec/bazaura.pk-next-js-web), [bazaura.pk-app](https://github.com/zestymec/bazaura.pk-app), [python-bazaura-app-backend](https://github.com/zestymec/python-bazaura-app-backend) (github.com/zestymec).
- AKFP Fundraiser Platform** — Next.js, Tailwind CSS. Shipped production platform for Alkhidmat Foundation, with AI-assisted content enhancement for campaign descriptions.
- Alkhidmat Mobile App & WebView App** — React Native. In development for iOS and Android.
- GitHub Portfolio** — 70+ repositories spanning React, Python, and full-stack projects (github.com/zestymec).
